New building (which even includes a demolition) Regularization of an existing structure Extention or renovation Statement of the project is a new building (including a demolition), an extention, a renovation or a regularization of an existing building	5.1. General descriptio	n				
Extention or renovation 5.1.1. If the project is a new building (including a demolition), an extention, a renovation or a regularization of an existing building						
5.1.1. If the project is a new building (including a demolition), an extention, a renovation or a regularization of an existing building					Regu	ularization of an existing structure
	Extention or renov	ation				
Description of the proposal and future use of the building:	-	-		, a renovation or a re	egulariza	ation of an existing building
	Description of the prop	osal and future use of the bu	ilding:			

Category of risk (see matrix in annexes 01 and 02):			1 🗌 2	3	
Type of structure: RC Steel Brid	ck 🗌 Other				
Number of storeys: Total built-up gro	oss area in sq.f:				
Is the project be considered by the Section 42(b) of	the Environmental Conservation Law		🗌 Yes	🗌 No	
Is the project intended to be build in an industrial ar	ea (see map) ?		🗌 Yes	🗌 No	
Is the Land Title has a D-Map			🗌 Yes	🗌 No	
Is the project located in the Shwe Dagon Pagoda (see	e map) ?		🗌 Yes	🗌 No	
5.1.2. If the project includes the construction of a feature	nce				
Does the project include the construction of a fence			Yes	🗌 No	
If yes, please include in the architectural drawings and details of the	he materials used				
Total length of the fence in ft:	Height in ft:				
5.1.3. If the project requires any demolition					
Description of the intended works of demolition and	l safety measures to be taken:				
· ·	·				
Total gross area of the demolition in sq.f:	Total gross volume of the demolition i	in ch f			
Is the project be considered by the Section 42(b) of	_	III CD.1.	Yes	□ No	
Number of storeys to be demolished:					
Type of structure to be demolished:					
Load bearing masonry Wood	Mixed:				
Reinforced Concrete framed Steel	Other:

5.4. Access (for new buildings, extent	tion or renovation)			
Methods of existing or proposed	I means of access to and from an adjoining roa	ad:		
	Access exists and it is not to be altered \Box New or improved pedestrian access proposed			
	New or improved vehicle access proposed	(all access, to be shown on the submitted plans)		
5.5. Water supply (for new building	s, extention or renovation)			
Is the water supply into the build	ling will be satisfied by:			
	Public pipes into the building	Public pipes to standpipes within the site		
	Other source, specified as:			
	Water supply is already provided (in case of a			
Do you intend to require a conne	· · ·	Yes No		
If yes, please fill the WS-001 application f	form and add additional specific required documentation			
5.6. Electricity supply (for new bui	ldings, extention or renovation)			
Is the electricity supply into the l				
	New connection into the building	No connection will be made at present time		
	Connection is already provided (in case of an	enlargement or alteration of an existing building)		
5.7. Sewage System (for new build	ings, extention or renovation)			
The sewage system will be direct	ted:			
	to the mains which exist	to a wastewater treatment plant		
	into a septic tank	other mean specified as:		
5.8. Licensed Contractor				
Shall the project be undertaken	by a licensed contractor ?			
Ľ	Yes	□ No		
6. TAIS (T	echnical Administrative Information Sheet	t) (for new buildings, extention and renovation)		
Has a TAIS been sought from the	local authority concerning this application?	Yes No		
If Yes, please provide the followi		Date of issue:		
	7 Site geografibilit			
	7. Site accessibilit	•		
is the site accessible from a public	road, public footpath or other public land ?	Yes No		
	8. Previous Building Perm	nit issued		
	hat has been issued within the past 24 months			
The previous building permit will b	be automatically cancelled from the moment the	e new building permit is issued.
